

AerFilm sofTouch®

General Information

July 2020 • Page 1 of 1

AerFilm sofTouch® is a new decorative laminate designed to provide an exceptionally low gloss and luxuriously soft feel all while providing the performance and ease of use you expect from Schneller.

Engineered for 3-dimensional parts, **AerFilm sofTouch®** is ideal for premium cabins and seats, and combines a comfortable passenger feel and durability with no compromise when it comes to FST compliance.

Product Features

- Provides an exceptional tactile passenger experience
- Available in a broad range of colors and textures enabling ultimate design freedom while providing the aesthetic consistency required of premium cabin accommodations
- Can be applied to flat or three-dimensional parts
- Continuously laminated and embossed rolls
- Lower weight than other soft furnishings available to the aviation industry
- Superior durability (abrasion, scratch resistance) compared to other soft furnishings
- Superior resistance to fading (colorfastness to light) compared to other soft furnishings
- Superior cleanability and stain resistance compared to other soft furnishings
- Meets all FAA Heat Release and Smoke Density requirements as per 14 CFR 25.853 (a)
