Schneller's **AerFusion *eco*[®]** is the superior choice in non-textile flooring for the aircraft industry. Featuring a lightweight, all-in-one construction, **AerFusion *eco*** is engineered to support the most rigorous demands through patented technology resulting in an enhanced flooring solution.

AerFusion *eco*[®] is the only printable, Standard I, ABD 0031 compliant, non-textile flooring that can satisfy airlines' brand requirements, while enhancing passengers' comfort and safety through revolutionary anti-slip resistance and unparalleled anti-telegraphing performance.

- Lower weight construction resulting in enhanced fuel economy.
- Material available in continuous roll form yielding less waste.
- Low tox product composition meets the Airbus ABD 0031 requirement.
- **AerFusion *eco*** has the best slip resistance to insure your passengers and staff members safety and comfort.

Product Specifications

- Roll Widths: up to 59.25
- Roll Lengths: 10-80 yds.
- Thickness: 55 mil (1.4 mm).
- Weight: 54.8 oz/yd² (1900 g/m²).
- Qualified to Airbus AIMS 04-26-002 and ABD 0031 compliant.
- Available in Schneller's standard textures with Schneller's color-matched hot welding eco Rod for safe and easy watertight installation

Possible Applications

- Lavatory
