

AerShade® Cleanability & Stain Removal

Technical Bulletin

May 2020 • Page 1 of 1

Schneller has engineered AerShade® to be highly cleanable. Laboratory tests confirm that these products are resistant to staining agents and will not fade or streak; even after heavy cleaning. Because of the wide variety of staining agents an aircraft interior is exposed to, the type of cleaning agent may vary.

Stain Removal – Easy (Wet-cloth only)

- Nonabrasive cloth moistened with water.

Stain Removal – Mild (Soaps, Detergents)

- Household detergent (Lestoil) followed by clear water rinse.
- Cloth or soft bristled brush/little pressure to prevent polishing of stained area.

Stain Removal – Moderate (Solvents)

- Mineral Spirits, Kerosene, Naphtha, Turpentine, Fabric cleaning fluids, Acetone, Toluene and MEK.
- Cloth or soft bristled brush/little pressure to prevent polishing of stained area.

Recommended Cleaning Agents

- Water
- Lestoil
- Formula 409
- Neleco Graffiti Remover
- 2194 Graffiti Remover
- Grafforange ST5
- Acetone
- MEK
