

## AerTrim® BD100

### General Information

June 2020 • Page 1 of 1

**AerTrim® BD 100** is Schneller's newest decorative laminate developed for aircraft applications to simulate the look of fabric-type materials. Typical areas of use are bulkheads, class dividers/partitions and dado panels. AerTrim™ BD 100 has been successfully flight-tested and evaluated in a joint effort with several major airlines.

**The Look of a Fabric,  
the durability of a laminate**

### Product Features & Benefits

- Textile-like emboss textures
  - Simulate fabric appearance
- Glass fiber reinforcement
  - Long life – superior durability
- 65/65/200 Compliant
  - Improved flame and smoke performance vs. fabric
- Unlimited custom color and design availability is ensured and backed up by Schneller's well-equipped and experienced Design and Color Matching staffs
